**PLUME is a young company, located in Ho Chi Minh, Vietnam.
With expertise acquired in the industry by leading global projects.
We can help your company achieve its industrialization challenges.**

The Core Team:

Pierre ESCOFFIER: 15 years in industry from automotive (FAURECIA - Europe) to electronic (IDEMIA – Switzerland and China) as project and technical manager. Familiar with high-end product industrialization in a multi-cultural environment. Always oriented solution to reach success.

Michel SIMIAN: 30 years in software development in industrial environment. SAGEM, THALES, ARDES, are few references. Specialist to develop test solutions with vision and actuator, he will be thrilled to build your system.
